

# Veneered Doors & Edgebanded Components

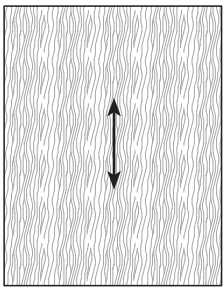

*“Outstanding quality at competitive prices!”*

## MDF Core Machine Applied Edge Band Option

- Only available in 3/4" thickness.
- “A” grade hardwood veneer on the face with a #1 grade veneer on the back.
- MDF material is visible on the outside edge profile, if left raw. This will generally appear darker than the face or back of the door when finished.
- The edgiband grain that is exposed on the face of the product, (ie: *SWE125 and SWE25*), will match the veneered face of the product.
- Maximum size limitation 48"W x 96"H.
- Minimum size for pricing door styles is **1 square foot** and a **1/2 square foot** for drawer front styles, per item.
- Arrows (←→) indicate standard grain direction. Grain direction may be specified at **NO** additional cost.
- **FP100** and **FP200** fingerpull options are only available with a **Raw Edge (RE100)**.

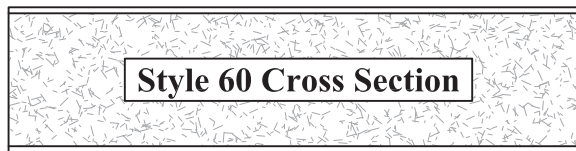

**Style 60\***  
**Drawer Front**  
Frame Group: NA

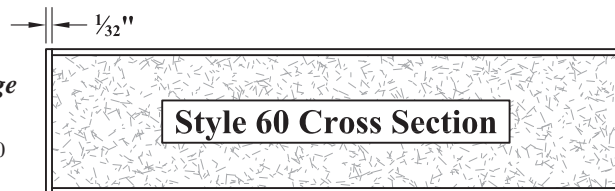

**Style 60**  
Frame Group: NA

## Veneered Doors & Edgework Components

*"WalzCraft is a Premier Leader in the Industry for Manufacturing Custom Products!"*

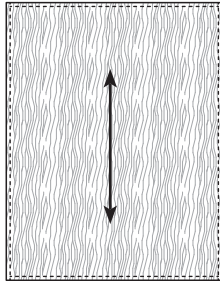

### MDF Core Machine Applied Edge Band Option

- Only available in 3/4" thickness.
- Core is created by attaching 1/4" thick solid wood edgework, with a machine, to MDF material.
- An "A" grade hardwood veneer is laminated to the front and back of the door, after the edgeworking is applied.
- Only edgework width is 1/4".
- The edgework grain that is exposed on the sides of the product, will match the veneered face of the product.
- Only available with a **D7** outside edge profile.
- No fingerpull or mitered corner options are available.
- Maximum size limitation 48"W x 96"H.
- Minimum size for pricing door styles is **1 square foot** and a **1/2 square foot** for drawer front styles, per item.
