Passageway Doors

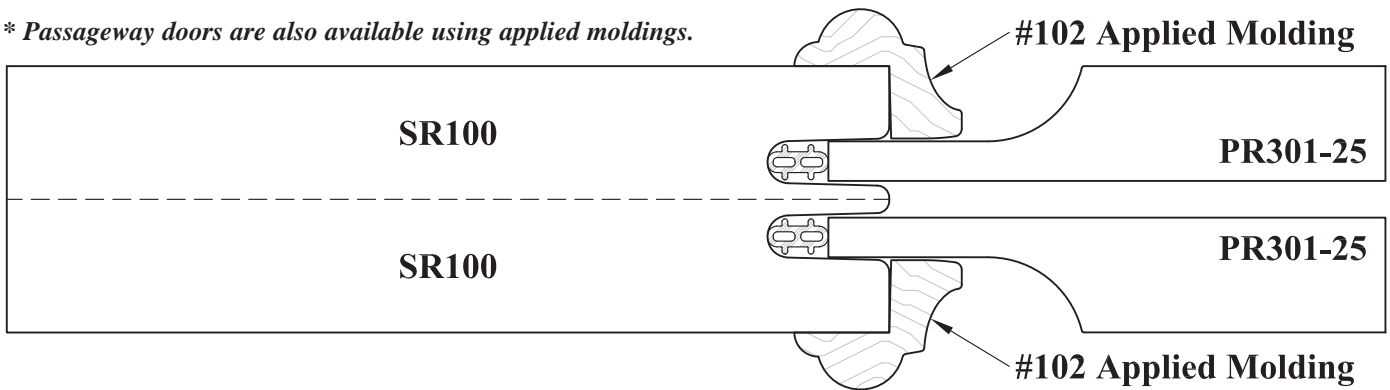

“Questions? Call our Customer Support Team at 1-800-237-1326.”

1³/₈" - Full Scale Drawing of a Combination SR107 and SR100 Stile & Rail Profile
 You may use a different stile and rail profile for each side of your passageway door.

1³/₈" - Full Scale Drawing of a Combination PR301-25 and a Veneered Flat Center Panel
 You may use a different center panel profile for each side of your passageway door.

* Passageway doors are also available using applied moldings.

Passageway Door Information

1)	Stile & Rail Profiles	You may choose any stile & rail profile offered by WalzCraft to customize your passageway door, with the exception of GRF profiles for frames and mullions.
2)	Panel Profiles	Available with any center panel profile offered for cabinet doors.
3)	Outside Edge	Only available with the D7 outside edge profile.
4)	Hardware	Passageway doors are not machined for any hardware.
5)	Finishing Precautions	If you are ordering passageway doors unfinished, remember that it is important to seal and topcoat all four outside edges.
6)	Finishing	Finishing is available. Please refer to our Specification Catalog for calculating the cost for finishing a passageway door. WalzCraft finishes all 4 edges on doors that are ordered prefinished. It is important that you refinish any edges that are cut off, sanded or planed.
7)	Passageway Door Warranty	WalzCraft offers the same warranty as offered for other products. However we will extend this warranty to all Passageway Doors up to and including 80" in height rather than the 72"H limitation noted for warpage tolerances.
8)	Tolerances	The width and height are +/- 1mm. All components parts of an assembled product are +/- 2mm. Passageway doors have an allowable warpage tolerance of 1/4".
9)	Applied Moldings	All applied molding options are available with the exception of recessed applied moldings (RAM). Please note that bi-fold and by-pass doors may have special clearance considerations that vary with the application of hardware being used.
10)	Exterior Use	Passageway doors are not intended for exterior use.
11)	Non-Standard Parts	There will be an upcharge for each non-standard part, which varies from standard doors.
12)	Center Rail Placement	Center Rail placement may be specified.
13)	Fire Rating	WalzCraft raised and flat panel passageway doors are <u>not</u> fire rated.
