Dear "Quality Doors" Customers:

WalzCraft would like to extend a helping hand to any & all "Quality Doors" customers searching for a new door supplier due to Quality Doors ceasing operations later in 2009.

WalzCraft has been providing custom unfinished and prefinished custom cabinet doors to cabinet refacing and custom cabinet manufactures for nearly 28 years. We consider ourselves one of the most "quality orientated" suppliers in our industry. We are very confident that you will find WalzCraft's product offering to be the most extensive, especially in the areas of prefinished cabinet door and cabinet refacing supplies, including veneers and moldings.

"In an effort to help you transition to WalzCraft" we have attached a spread sheet which shows all the WalzCraft door & drawer front styles, profiles and stain colors that either match or come very close to matching Quality Doors offerings.

WalzCraft is ready and willing to help you out in any way possible. We understand how important it is to keep your business running smoothly and we will do whatever it takes to make the transition to WalzCraft as seamless as possible.

As an incentive to take a closer look at WalzCraft, we are extending for a limited time only, a one time promotion for five free prefinished doors and five free drawer fronts to former Quality Doors customers. The only requirement to earn this is that you must provide WalzCraft with a copy of a Quality Doors itemized invoice showing us that a complete kitchen was ordered from Quality Doors within the past 12 months.

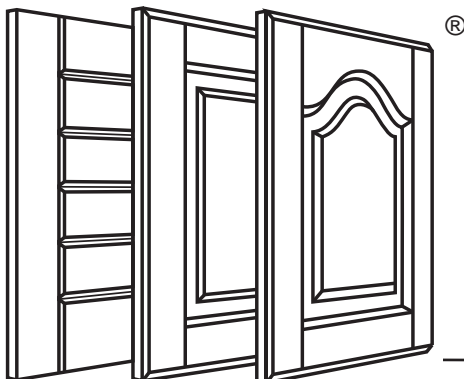

"Thank You" for considering WalzCraft as your next Cabinet Component vendor of choice.

Sincerely:

*Richard A Walz*

Richard A. Walz  
President
